

ಕೃತಕ ಬುದ್ಧಿಮತ್ತೆ (AI) ARTIFICIAL INTELLIGENCE

30 DAYS COMPLETE TEACHING PLAN

9ನೇ ತರಗತಿ | 50 ನಿಮಿಷ ತರಗತಿ

Class 9 | 50 Minutes Per Class

Based on CBSE/NCERT AI Curriculum for Class 9

Bilingual: Kannada + English

CLASS STRUCTURE - 50 MINUTES

Time	Activity	Description
0-5 min	/ Recap	Previous class revision + Q&A
5-20 min	/ Main Teaching	Core concept explanation with examples
20-30 min	/ Demo	Live demo / Video / Activity
30-40 min	/ Practice	Hands-on activity / Group work
40-48 min	/ Discussion	Q&A, doubts, discussion
48-50 min	/ Homework	Assignment + next class preview

30 DAYS TIMETABLE OVERVIEW

Day	Topic (Kannada)	Topic (English)	Key Focus
1	AI ಪರಿಚಯ	Introduction to AI	? What is AI? Definit...
2	AI ಇತಿಹಾಸ	History of AI	AI history timeline: Alan Turing (1950), Firs...
3	AI ವಿಧಗಳು	Types of AI	3 types: Narrow/Weak AI (specific tasks), Gen...
4	AI ಕ್ಷೇತ್ರಗಳು	AI Domains	5 AI domains: Data, Computer Vision, NLP, Rob...
5	AI ಚಕ್ರ & ಹಂತಗಳು	AI Cycle & Stages	AI Project Cycle: Problem Scoping > Data Coll...
6	AI ಮತ್ತು ನೈತಿಕತೆ	AI Ethics	Ethics in AI: Bias, Privacy, Job loss, Deepfa...
7	ವಾರದ ಪುನರಾವೇಶ & Quiz	Week 1 Revision + Quiz	Recap all Week 1 topics. Quick quiz (oral + w...
8	ದತ್ತಾಂಶ ಪರಿಚಯ	Introduction to Data	What is Data? Types: Structured (tables), Uns...
9	ದತ್ತಾಂಶ ಸಂಗ್ರಹಣೆ	Data Collection	Methods: Surveys, Sensors, Web scraping, Data...
10	ದತ್ತಾಂಶ ವಿಶ್ಲೇಷಣೆ	Data Exploration	How to understand data: Charts (bar, pie, lin...
11	ದತ್ತಾಂಶ ಗುಣಮಟ್ಟ	Data Quality & Cleaning	Good data vs Bad data. Missing values, Duplic...
12	ಯಂತ್ರ ಕಲಿಕೆ (ML) ಪರಿಚಯ	Introduction to Machine Learning	What is ML? AI learns from data without expli...
13	ಮೇಲ್ವಿಚಾರಣೆಯ ಕಲಿಕೆ	Supervised Learning	Learning with labeled data. Classification (c...
14	ವಾರ 2 ಪುನರಾವೇಶ	Week 2 Revision + Activity	Recap Data + ML basics. Hands-on project: Pap...
15	ನೈಸರ್ಗಿಕ ಭಾಷಾ ಸಂಸ್ಕರಣೆ (NLP)	Natural Language Processing	How AI understands human language. Chatbots, ...
16	ಕಂಪ್ಯೂಟರ್ ದೃಷ್ಟಿ (CV)	Computer Vision	How AI 'sees': Image recognition, Face detect...
17	AI ರೋಬೊಟಿಕ್ಸ್	Robotics & AI	Robots + AI = Smart machines. Types: Industri...
18	AI ಆರೋಗ್ಯಕರಣ	AI in Healthcare	AI for disease detection (X-ray reading), Dru...
19	AI ಕೃಷಿಯಲ್ಲಿ	AI in Agriculture	Crop disease detection, Weather prediction, P...
20	AI ಶಿಕ್ಷಣದಲ್ಲಿ	AI in Education	Personalized learning, Intelligent tutoring, ...
21	ವಾರ 3 ಪುನರಾವೇಶ & ಯೋಜನೆ	Week 3 Revision + Project Planning	Recap NLP, CV, Robotics, AI applications. Int...
22	AI ಯೋಜನೆ - ಸಮಸ್ಯೆ ಗುರುತಿಸುವಿಕೆ	Project: Problem Scoping	AI Project Cycle Step 1: Define the problem c...
23	AI ಯೋಜನೆ - ದತ್ತಾಂಶ	Project: Data Planning	Step 2: What data do you need? Where to get i...
24	AI ಉಪಕರಣಗಳು	AI Tools for Students	Free AI tools: ChatGPT, Google Bard, Canva AI...
25	AI ಪೈಥನ್ & ಜಾವಾ	Python & AI (Basics)	Why Python for AI? Basic Python intro: print(...

28	ಯೋಜನೆ ಪ್ರಸ್ತುತತೆ ತಯಾರಿ	Project Presentation Prep	How to present: Structure, Visually, Clearly....
29	ಯೋಜನೆ ಪ್ರಸ್ತುತತೆ	Final Project Presentations	Each group presents their AI project (5-7 min...
30	ಅಂತಿಮ ಪರೀಕ್ಷೆ & ಸಮಾಪನೆ	Final Assessment & Closure	Written quiz (20 marks) + Oral Q&A (10 marks)...

DAY 1: Introduction to AI

AI ಪರಚಯ

TEACHING CONTENT (5-20 min):

? What is AI? Definition, everyday examples (Google, Alexa, YouTube recommendations). AI vs Human intelligence.

DEMO / ACTIVITY (20-30 min):

Show AI examples: Google Translate, Face filters, Voice assistant demo on phone

HOMEWORK / ASSIGNMENT:

List 5 AI apps you use daily / 5 AI

DAY 2: History of AI

AI ಇತಿಹಾಸ

TEACHING CONTENT (5-20 min):

AI history timeline: Alan Turing (1950), First chatbot ELIZA (1966), Deep Blue (1997), AlphaGo (2016), ChatGPT (2022). Turing Test explained.

DEMO / ACTIVITY (20-30 min):

Video: Brief history of AI (5 min). Timeline activity on board.

HOMEWORK / ASSIGNMENT:

Draw AI timeline on chart paper / AI

DAY 3: Types of AI

AI ವೃದ್ಧಿಗಳು

TEACHING CONTENT (5-20 min):

3 types: Narrow/Weak AI (specific tasks), General AI (human-level), Super AI (beyond human). Current AI = Narrow AI only. Examples of each.

DEMO / ACTIVITY (20-30 min):

Classify apps: Is Siri Narrow or General? Is Calculator AI? Group discussion.

HOMEWORK / ASSIGNMENT:

Worksheet: Classify 10 technologies as AI or Not-AI

DAY 4: AI Domains

AI ಕ್ಷೇತ್ರಗಳು

TEACHING CONTENT (5-20 min):

5 AI domains: Data, Computer Vision, NLP, Robotics, Expert Systems. Real-world examples of each domain.

DEMO / ACTIVITY (20-30 min):

Show: Image recognition demo, Voice-to-text demo, Robot videos

HOMEWORK / ASSIGNMENT:

Match AI domains with real applications (worksheet)

DAY 5: AI Cycle & Stages

AI ಚಕ್ರ & ಹಂತಗಳು

TEACHING CONTENT (5-20 min):

AI Project Cycle: Problem Scoping > Data Collection > Data Exploration > Modelling > Evaluation. Explain each step simply.

DEMO / ACTIVITY (20-30 min):

Example: Build a 'Predict rain' AI project on paper - go through each step

HOMEWORK / ASSIGNMENT:

Write AI project cycle for: Spam email detector

DAY 6: AI Ethics

AI ಮತೃತು ನೈತಿಕತೆ

TEACHING CONTENT (5-20 min):

Ethics in AI: Bias, Privacy, Job loss, Deepfakes. Responsible AI use. Right vs Wrong in AI. AI should help not harm.

DEMO / ACTIVITY (20-30 min):

Discussion: Should AI replace teachers? Is face recognition right? Debate activity.

HOMEWORK / ASSIGNMENT:

Write 5 rules for responsible AI use

DAY 7: Week 1 Revision + Quiz

ವಾರದ ಪುನರಾವೇಶ & Quiz

TEACHING CONTENT (5-20 min):

Recap all Week 1 topics. Quick quiz (oral + written). Clear doubts.

DEMO / ACTIVITY (20-30 min):

Quiz game: AI Kaun Banega Crorepati style Q&A

HOMEWORK / ASSIGNMENT:

Prepare for Week 2: Data Science basics

DAY 8: Introduction to Data

ದತ್ತಾಂಶ ಪರಿಚಯ

TEACHING CONTENT (5-20 min):

What is Data? Types: Structured (tables), Unstructured (images, text). Data sources. Why data is important for AI. Data = fuel for AI.

DEMO / ACTIVITY (20-30 min):

Show Excel sheet vs Photo vs Audio - identify structured/unstructured

HOMEWORK / ASSIGNMENT:

Collect data: Survey 10 classmates (favorite food, hobby, height) - create table

DAY 9: Data Collection

ದತ್ತಾಂಶ ಸಂಗ್ರಹಣೆ

TEACHING CONTENT (5-20 min):

Methods: Surveys, Sensors, Web scraping, Databases, APIs. Primary vs Secondary data. Quality of data matters.

DEMO / ACTIVITY (20-30 min):

Activity: Design a survey form for 'Best school canteen food' - collect responses

HOMEWORK / ASSIGNMENT:

Complete survey and bring data to next class

DAY 10: Data Exploration

ದತ್ತಾಂಶ ವಶೀಕರಣ

TEACHING CONTENT (5-20 min):

How to understand data: Charts (bar, pie, line), Tables, Mean/Median/Mode. Finding patterns in data.

DEMO / ACTIVITY (20-30 min):

Use survey data from Day 9: Create bar chart and pie chart on paper/board

HOMEWORK / ASSIGNMENT:

Draw 2 charts from your collected data

DAY 11: Data Quality & Cleaning

ದತ್ತಾಂಶ ಗುಣಮಟ್ಟ

TEACHING CONTENT (5-20 min):

Good data vs Bad data. Missing values, Duplicates, Errors. Data cleaning process. Garbage In = Garbage Out.

DEMO / ACTIVITY (20-30 min):

Activity: Given messy data sheet - find and fix errors (paper activity)

HOMEWORK / ASSIGNMENT:

Create a clean dataset from given raw data

DAY 12: Introduction to Machine Learning

ಯಂತ್ರ ಕಲಿಕೆ (ML) ಪರಿಚಯ

TEACHING CONTENT (5-20 min):

What is ML? AI learns from data without explicit programming. Training vs Testing. Supervised, Unsupervised, Reinforcement learning - simple examples.

DEMO / ACTIVITY (20-30 min):

Demo: Teachable Machine (Google) - train a model with hand gestures using laptop/phone camera

HOMEWORK / ASSIGNMENT:

Write differences between AI, ML, and Deep Learning in your own words

DAY 13: Supervised Learning

ಮೇಲ್ವಿಚಾರಣೆಯ ಕಲಿಕೆ

TEACHING CONTENT (5-20 min):

Learning with labeled data. Classification (cat/dog) vs Regression (price prediction). Teacher guides student = Supervised.

DEMO / ACTIVITY (20-30 min):

Activity: Paper sorting game - sort animals into categories (classification hands-on)

HOMEWORK / ASSIGNMENT:

Give 5 examples each of Classification and Regression problems

DAY 14: Week 2 Revision + Activity

ವಾರ 2 ಪುನರಾವೇಶ

TEACHING CONTENT (5-20 min):

Recap Data + ML basics. Hands-on project: Paper-based ML activity.

DEMO / ACTIVITY (20-30 min):

Rock-Paper-Scissors prediction game: Track patterns, predict next move (ML concept)

HOMEWORK / ASSIGNMENT:

Prepare poster: 'Data Science in Daily Life'

DAY 15: Natural Language Processing

ನೈಸರ್ಗಿಕ ಭಾಷಾ ಸಂಸ್ಕರಣೆ (NLP)

TEACHING CONTENT (5-20 min):

How AI understands human language. Chatbots, Translation, Sentiment analysis. How Google Translate works. Voice assistants.

DEMO / ACTIVITY (20-30 min):

Demo: Talk to Google Assistant in Kannada. Use Google Translate. Try ChatGPT.

HOMEWORK / ASSIGNMENT:

Write a conversation with a chatbot. Note what it understands and what it doesn't.

DAY 16: Computer Vision

ಕಂಪ್ಯೂಟರ್ ದೃಷ್ಟಿ (CV)

TEACHING CONTENT (5-20 min):

How AI 'sees': Image recognition, Face detection, Object detection, OCR. How phone camera identifies faces.

DEMO / ACTIVITY (20-30 min):

Demo: Google Lens - point at objects, identify plants, read text from image. Face filter apps.

HOMEWORK / ASSIGNMENT:

Take 5 photos and describe what Computer Vision AI would 'see' in each

DAY 17: Robotics & AI

AI ರೊಬೊಟಿಕ್ಸ್

TEACHING CONTENT (5-20 min):

Robots + AI = Smart machines. Types: Industrial robots, Service robots, Drones. Sensors, Actuators. India's robots: Mitra, Vyommitra (ISRO).

DEMO / ACTIVITY (20-30 min):

Video: How robots work in factories. Paper robot design activity.

HOMEWORK / ASSIGNMENT:

Design your dream AI robot on paper - what would it do?

DAY 18: AI in Healthcare

AI ಆರೋಗ್ಯದಲ್ಲೇ

TEACHING CONTENT (5-20 min):

AI for disease detection (X-ray reading), Drug discovery, Telemedicine, Health monitoring apps. AI Clinic in India.

DEMO / ACTIVITY (20-30 min):

Demo: Health apps that use AI. Discuss: Can AI replace doctors?

HOMEWORK / ASSIGNMENT:

Research one AI health app and write how it works

DAY 19: AI in Agriculture

AI ಕೃಷಿಯಲ್ಛ

TEACHING CONTENT (5-20 min):

Crop disease detection, Weather prediction, Precision farming, Drone spraying, Soil analysis. Indian AI agri-apps.

DEMO / ACTIVITY (20-30 min):

Show: Kisan app, Crop disease detection app demo.

HOMEWORK / ASSIGNMENT:

How can AI help a farmer in your village? Write 5 points.

DAY 20: AI in Education

AI ಶಿಕ್ಷಣದಲ್ಲೂ

TEACHING CONTENT (5-20 min):

Personalized learning, Intelligent tutoring, Language learning apps, Automatic grading, Virtual classrooms.

DEMO / ACTIVITY (20-30 min):

Demo: Duolingo, Khan Academy, Photomath - how AI helps in learning

HOMEWORK / ASSIGNMENT:

Write essay: 'How AI can improve our school' (1 page)

DAY 21: Week 3 Revision + Project Planning

ವಾರ 3 ಪುನರಾವಲೋಕನ & ಯೋಜನೆ

TEACHING CONTENT (5-20 min):

Recap NLP, CV, Robotics, AI applications. Introduce final project: Students choose an AI solution for a real problem.

DEMO / ACTIVITY (20-30 min):

Group formation (3-4 students). Brainstorm project ideas. Select problem to solve.

HOMEWORK / ASSIGNMENT:

Finalize project topic with your group. Write problem statement.

DAY 22: Project: Problem Scoping

AI ಯೆಜಿಣಿ - ಸಮಸ್ಯೆಯೆ ಗುರುತಿಸುವಾಕೆ

TEACHING CONTENT (5-20 min):

AI Project Cycle Step 1: Define the problem clearly. Who is affected? What data needed? What is the goal?

DEMO / ACTIVITY (20-30 min):

Groups work on their problem statement. Teacher guides each group.

HOMEWORK / ASSIGNMENT:

Complete Problem Scoping canvas for your project

DAY 23: Project: Data Planning

AI ಯೋಜನೆ - ದತ್ತಾಂಶ

TEACHING CONTENT (5-20 min):

Step 2: What data do you need? Where to get it? How much? How to collect? Data format.

DEMO / ACTIVITY (20-30 min):

Groups identify data sources and create data collection plan.

HOMEWORK / ASSIGNMENT:

Start collecting data for your project

DAY 24: AI Tools for Students

AI ಉಪಕರಣಗಳು

TEACHING CONTENT (5-20 min):

Free AI tools: ChatGPT, Google Bard, Canva AI, Remove.bg, Teachable Machine, Scratch AI extensions, ML for Kids.

DEMO / ACTIVITY (20-30 min):

Hands-on: Try 3 AI tools. Create something using AI (image, text, model).

HOMEWORK / ASSIGNMENT:

Use one AI tool to create something for your project

DAY 25: Python & AI (Basics)

AI ಪೈಥಾನ್ & ಜಾವಾ

TEACHING CONTENT (5-20 min):

Why Python for AI? Basic Python intro: print(), variables, if-else, loops. No coding pressure - just awareness.

DEMO / ACTIVITY (20-30 min):

Demo: Simple Python code on screen. Students see how AI code looks.

HOMEWORK / ASSIGNMENT:

Write pseudo-code (plain language steps) for your AI project

DAY 26: AI Careers & Jobs

AI ಉದ್ಯೋಗಿ & ಉದ್ಯೋಗಗಳು

TEACHING CONTENT (5-20 min):

AI careers: Data Scientist, ML Engineer, AI Researcher, Robotics Engineer, NLP Engineer. Skills needed. Salary ranges. Indian AI companies.

DEMO / ACTIVITY (20-30 min):

Guest talk / Video: Day in life of AI engineer. Career roadmap discussion.

HOMEWORK / ASSIGNMENT:

Write: My AI career plan - what I want to become and steps to reach there

DAY 27: AI in India

AI ಭಾರತದಲ್ಲ್

TEACHING CONTENT (5-20 min):

India's AI strategy: IndiaAI Mission, AIRAWAT, Responsible AI. Indian AI startups. AI in government services (DigiLocker, UMANG, CoWIN).

DEMO / ACTIVITY (20-30 min):

Discussion: How can AI make India better? Brainstorm ideas.

HOMEWORK / ASSIGNMENT:

List 10 Indian AI initiatives / apps

DAY 28: Project Presentation Prep

ಯೆಜಿಣಿ ಪರಸತುತ ತಯಾರಿ

TEACHING CONTENT (5-20 min):

How to present: Structure, Visually, Clearly. Groups prepare charts/models/slides for final presentation.

DEMO / ACTIVITY (20-30 min):

Groups practice presenting. Teacher gives feedback and corrections.

HOMEWORK / ASSIGNMENT:

Finalize presentation materials for Day 29

DAY 29: Final Project Presentations

ಯೆಜನಿ ಪರಸತುತೆ

TEACHING CONTENT (5-20 min):

Each group presents their AI project (5-7 min each). Peer evaluation. Teacher feedback.

DEMO / ACTIVITY (20-30 min):

All groups present. Class votes for best project. Certificates/appreciation.

HOMEWORK / ASSIGNMENT:

Write reflection: What I learned in 30 days of AI

DAY 30: Final Assessment & Closure

ಅಂತಿಮ ಪರೀಕ್ಷೆ & ಸಮಾಪನೆ

TEACHING CONTENT (5-20 min):

Written quiz (20 marks) + Oral Q&A (10 marks). Complete 30-day summary. Future learning roadmap for students.

DEMO / ACTIVITY (20-30 min):

Quiz + Fun AI Kahoot game. Awards: Best Project, Best Participation, AI Star.

HOMEWORK / ASSIGNMENT:

Continue learning AI: Resources list shared. Keep exploring!
